CONTENT

To promote judicial cooperation with the aim of contributing to the creation of a genuine European area of justice in criminal matters based on mutual confidence, EJTN has organised a series of simultaneous sets of seminars in different venues across Member States during the first phase of the Criminal Justice project I from 2010 to 2012.

The new approach on methodology of the seminars, based upon a simulation of the existing EU judicial cooperation environment has been a success among EU participants. The progress of a case inspired from actual facts written by experts involving both nationally and cross-border judicial cooperation and in applying EU mutual recognition instruments will be examined by the delegates. By means of the simulation, judges and prosecutors will learn about the practical questions that arise under their own legal system and moreover, under the systems of their colleagues in other Member States when executing a European Arrest Warrant or requesting Mutual Legal Assistance.

The seminar will require strong interactivity between the participants divided in 3 Core Groups having a national component in each seminar. The Core Group 1 composed of judges and prosecutors who are nationals from the Hosting country (Portugal) and the Core Groups 2 and 3 composed of judges and prosecutors from the Sending countries (Italy and Poland). Participants will comment on the practical cases according to their national systems to promote mutual trust.

A comprehensive overview of the work of EUROJUST and the EJM and their contribution to the process of international judicial co-operation in matters related to European Criminal Law will be examined. The seminars will be assisted by international and national experts, EJM contact points as well as EUROJUST representatives.
