

T05

Cross-border Exchange of e-Evidence

34/2021

ACTIVITY CURRICULUM

CEPOL in cooperation with EJTN

12 April – 23 April 2021

Online Course via CEPOL eLearning Platform (LEEd)

Organiser/Host (name and address)	CEPOL – European Union Agency for Law Enforcement Training Ó utca 27, 1066 Budapest, Hungary
Host (name and address)	The activity will be hosted online
Online Platform¹	CEPOL's Law Enforcement Education Platform (LEEd): https://leed.cepola.europa.eu
Activity Manager (name and contact)	Rastislav Kovac, Cybercrime Training Officer rastislav.kovac@cepola.europa.eu
Assistant(s) (name and contact)	Magdolna SZABO, Training Assistant magdolna.szabo@cepola.europa.eu
Number of Participants	37
Number of Trainers	tbc
Overall Aim	The aim of the training activity is to enhance cyber-investigations by providing knowledge and skills to use and exchange of electronic evidence in investigation and prosecution of cybercrime analysing the relevancy and admissibility of such evidence.
Target group	Law enforcement officers (two third of participants) and prosecutors (one third of participants via EJTN)
Learning Strategy	<p>The learning strategy is focused to enhance the capacity of law enforcement officers to integrate the use and exchange of electronic evidence in investigation and prosecution of cybercrime and relevancy and admissibility of such evidence. The learning process highlights a learner-centred approach and will consist of:</p> <ul style="list-style-type: none"> • Independent Learning: reviewing case studies, watching webinars, listening short videos, studying reading material – 15 hours; • Contact Learning via online forums: forum discussion with other participants, exchange of good practices – 3 hours; • Experiential Learning: practical exercises that need to be analysed by participants – 2 hours. <p>While there is no specific time slot when participants shall be available for completing the course tasks, they should follow the course continuously. Completion of the course would require around 2 hours' investment / working day from the attending participants during the length of two weeks.</p>
Assessment Strategy	<p>The assessment strategy has the focus on the learning process. It is a combination of:</p> <ul style="list-style-type: none"> • Self-assessments; • Participants feedbacks; • Course monitoring by activity manager; • Quizzes. <p>Participants that successfully undertake the compulsory part of the activities will be awarded a certificate of completion. This means:</p>

¹ For online activities or blended learning.

	<ul style="list-style-type: none"> • Reviewing mandatory training material (documents, videos, webinars etc.); • Contributing to forum discussions as required; • Successfully complete the assessments and quizzes. 	
Learning Outcomes	<p>Upon completion of the course, the participants are expected to be able to:</p> <ol style="list-style-type: none"> 1. Recognise insights into issues of cybercrime investigation and electronic evidence; 2. Identify and secure electronic evidence; 3. Prepare for search and seizure activities involving electronic evidence; 4. Know the tools and methods how to collect, preserve, analyse electronic evidence; 5. Develop coherent and legible case reports related to the collection and preservation of the electronic evidence for the law enforcement and judicial authorities; 6. Include the newest experiences in investigation and prosecution of cybercrime in such criminal cases; 7. Use international channels to exchange information packages related to electronic evidences within cross border cases; 8. Understand the legal framework of electronic evidence;
