## Introduction

---

**Target group:** Judges, Prosecutors and Defense Lawyers

**Description:** The European Arrest Warrant (EAW) is the seminal instrument in the field of EU judicial cooperation in criminal matters. It is widely used, and has proven to be, an efficient tool in accelerating the execution of warrants and surrender procedures in cross border criminal cases within the EU. At the same time the EAW still poses a number of issues – mostly related to fundamental rights protection - that Member States find difficult to accommodate in their respective legal systems. It is in this context that the seminar is willing to map out the operational success of the EAW and discuss the concerns present in the application of the EAW.

**Method:** A mixture of presentations, discussions and workshops

**Objectives:** The purpose of the seminar is two-fold: firstly, to provide participants with information on the use, domestic application and evaluation of the EAW. In this vein, the training will seek to cover issues on how to issue an EAW, how to refuse an EAW, how to ensure that the principle of proportionality is applied, in considering whether to issue an EAW, and what the technicalities in processing an EAW are. Secondly, the seminar will seek to discuss the procedural position of the suspected/accused person subject to the EAW as well as the specificities of the EAW cases that to which defense attorneys should pay a particular attention.

Special consideration will be given to Directive **2013/48/EU** on the right of access to a lawyer in criminal proceedings and in European arrest warrant proceedings, the right to have a third party informed upon deprivation of liberty and to communicate with third persons and with consular authorities while deprived of liberty. Directive **2010/64/EU** on the right to interpretation and translation in criminal proceedings as well as Directive **2012/13/EU** on the right to information in criminal proceedings. Also, the right to liberty, the right to fair trial and access to justice issues (legal aid, legal representation) will be considered, as protected under EU law and interpreted by the CJEU, and guaranteed under the ECHR and interpreted by the ECtHR.
